A Very Interesting Work,

We have just received from the National Publishing Co of Cincinnate a copy of Prof O S. Fowler's great work. on Manhood, Womanhood, and their Mutual Intercelations; Love, its Laws, Power etc. We hall its advest with us distinguished satisfaction, and cordially commend t to the perusal of all classes of our community Forty years experienc- as a t scher, and lecturer or, secence, and a long life devoted to consultations and advice in connection with subjects concerning which men and women hestate to confide—even in their physicians—have enabled Professor Fowler to give to the world the most remarkable and useful volume of the day and one which should find its way into the hands of every conscientious man and woman.

As its tile indicates, it is devoted to an explanation of the laws which govern DISTRICT the sexes in their relations to each other; the ign rance of which causes so much sorrow and suffering in the world. Thousands will thank the author for his disclosures, and we predic that the book will mark the begining of a clearer untreats. Men will be arrested in their eedless course, and made to phink of the misery they are entailing upon their families and themselves through ignorance. Wives will find in this volu sare and sare r ad to the accompashment of every true wife's desires. Wa-men who wish to retain their health and beauty in mature life, will be taught in this volume the secret of doing so. and will also learn here the true means of keeping their husbands faithful.

There would be fewer firesides made desolate by the loss of a loved wife; tewold, broken and enterbled wife, if the laws of "Sexual Scince," which are laid down and explained in this book were better understood and more generally acted upon.—The best guarantee of its excellence is the fact that its suggestions and rem-dies meet the approval of every intenigent physician in the country. It exposes quacks and patent med icens unme-civilly and by its commons-nse-views will save many a dollar for those who follows its instructions, as well as put them on the sure road to health. It will show how mothers can avoid much of their suffering, and how they can raise daughters fit to be wives and mothers. It will show men how to and mothers. It will show men how to develop their manly vigor, and women how to promose the growth of those charms which render them so attractive

Mr Wm Hoch died at his residence, may be made to reign supreme in the back to those from whomit has fled. The book appeals to every class, and to force to those contemplating marriage, and we most cordially commend his hook to all such. It is pure and elevated in tone, and abounds in the most useful information concerning both sexes. Its low pree brings it within the reach of all, and the information it contains is beyond value. Its circulation

will be a benefit to society.

The book is sold by subscription only, and the publishers want agents in every

Mr. Coder, is well known SPRING BED BOTTOM Patented Sept. 13th. 1870.

> Simple, most durable, cheapest and pest MANUFACTURED BY

W. BAILEY COLDWATER, MICH.

This improved Spring Bed Bottom combines the excellencies of the best Bed Spring, and also possesses of its own which make it superior to all others. It is most simple and durable, and so constructed that the failure of any part can be easily supplied. The alats are made of the best material, and can be turned over seperately without unfastening; thus remedying the difficulty or eagging and wrapping the slats. The slats are united by a leather tie, allowing the use of much more limber slats mortgages on the premises sold, with than would otherwise be possible. The Frame is as constructed that the full width of the bedstead it preserved, and the spring sasily adjusted. The slats he above the wire, and there are projections of wood or wire to wear the mattress. There is also as independent spring for the head of the bed making it easier and requiring less pillow.

It furnishes an hiding places for bugs, Parties turnishing beds will find that a b ter and cheaper bed can be furnished b the used of this spring than in any other I is chesper than any other bed spring

throughout this and other countries, has shown that it does surely and effectually control them. The teashown that it does surely and effectually control them. The testimony of our best citizens, of all classes, establishes the fact, that Cherry Propass will and does relieve and cure the afficting disorders of the Throat and Lungs beyond any other medicine. The most dangerous affections of the Pulmonary Organs yield to its power; and cases of Consumption, cured by this preparation, are publicly known, so remarkable as hardly to be believed, were they not proven beyond dispute. As a remedy it is adequate, on which the public may rely for full protection. By carring Coughs, the forerunners of more serious disease, it saves unnumbered lives, and an amount of suffering not to be computed. It challenges trial, and convinces the most sceptical. Every family should keep it on hand as a protection against the early and unperceived attacks of Pulmonary Affections, which are easily met at first, but which become incurable, and too often fatal, if neglected. Tenderlungs need this defence; and it is unwise to be without it. As a safegnard to children, amid the distressing diseases which beest the Throat and Cheet of childhood, Curant Fectoral is invaluable; for, by its timely use, multitudes are rescued from premature graves, and saved to the love and affection centred on them. It acts specifiy and surely against ordinary colds, securing sound and health-restoring sleep. No one will suffer troublesome Influenza and painful Bronschitis, when they know how easily they can be curred.

color, with the gloss and freshness of youth. Thin hair is thickened, falling bair checked, and baldness often, though not always, cured by its use. Nothing can restore the hair where the follicles are destroyed, or the glands atrophied and decayed; but such as remain can be saved by this application, and stimulated into activity, so that a new growth of hair is produced. Instead of feuling the hair with a pasty sodiment, it will keep it clean and vigorous. Its occasional use will present the hair from turning gray or falling off, and consequently prevent baldness. The restoration of vitality it gives to the scalp arrests and prevents. the formation of dandruff, which is often so uncleanly and offensive. Free from those deleterious substances which make some preparations dangerous, and injurious to the hair, the Vigor can only benefit, but not harm it. If wanted merely for a HAIR DRESSING, nothing else can be found so desirable. Containing neither oil nor dve, it does not soil white cambric, and yet lasts long on the hair, giving it a rich, glossy lustre, and a grateful perfume.
